Minneapolis 9/12/17 – MeetToImpeach.com is now online. The new web site features:

- Links to current impeachment news, commentary and analysis.
- Featured links to enduringly well-done articles and essays – based on an editorial assessment.
- Links to other sites and pages with a primary focus on impeachment.
- Links to impeachment related resources.
- Reporting on meetings of all kinds organized to promote the impeachment and removal from office of President Trump, including plans based on first offering him incentives to “resign and retire.”

The site is edited and published by Bob “Again” Carney Jr., (bobagain) -- a Minnesota “Candidate/Journalist” who has recently published [Break Glass Impeach Trump](#), a book presenting a new constitutional theory on impeachment, and advocating President Trump be impeached and removed from office if he does not “resign and retire.” That book is available on Amazon and Kindle, in both paperback and e-book formats. Note: bobagain -- who strongly advocates President Trump should “resign and retire” or be impeached -- is seeking the Republican endorsement and nomination for Governor of Minnesota. This is his second run for Governor – in 2010 he was second in the GOP primary, with about 10,000 votes and about 8% statewide.
